

RAJESH GALIPELLI

AWS DevOps Engineer

rajeshgalipeli123@gmail.com • +91 9848776478 • linkedin.com/in/rajesh-galipelli • github.com/RajeshGalipelli
• rajeshgalipelli.github.io/rajesh-portfolio • Hyderabad, India • Immediate Joiner

PROFESSIONAL SUMMARY

AWS DevOps Engineer with 1.1 year of hands-on experience building production CI/CD pipelines, automating cloud infrastructure with Terraform, and managing Kubernetes clusters on AWS. Delivered 30% faster releases and 40% faster incident response at Atos Syntel. Skilled in DevSecOps practices — integrating SonarQube, Trivy, and OWASP into automated pipelines. Proficient in Jenkins, Docker, ArgoCD, GitOps, Helm, Prometheus, and Grafana. Immediate joiner based in Hyderabad, open to remote.

TECHNICAL SKILLS

Cloud:	AWS EC2, S3, VPC, IAM, ELB, Auto Scaling, CloudWatch, RDS MySQL, CodePipeline
CI/CD:	Jenkins, Git, GitHub, Maven, ArgoCD, GitOps, AWS CodePipeline
Containers:	Docker, Kubernetes, Helm, KOPS, ReplicaSets, HPA, Ingress, EBS Volumes IaC
& Config:	Terraform, Ansible, YAML, Bash/Shell Scripting
Monitoring:	Prometheus, Grafana
Security:	SonarQube, Trivy, OWASP Dependency Check, DevSecOps
OS & Tools:	Linux, Windows, Agile/Scrum

PROFESSIONAL EXPERIENCE

AWS DevOps Engineer | [Atos Syntel](#) | Chennai, India May 2022 – June 2023

- Built end-to-end CI/CD pipelines using **Jenkins**, **Git**, and **Maven**, **reducing release time by 30%**.
- Automated AWS infrastructure provisioning (EC2, S3, VPC, IAM, ELB, Auto Scaling) using **Terraform**, reducing manual effort by **60%**.
- Containerized applications using **Docker** and deployed them on **Kubernetes** using Deployments, Ingress, and HPA.
- Implemented **Blue-Green** and **Canary deployments** using **ArgoCD** and **GitOps**, enabling zero-downtime releases.
- Integrated **SonarQube**, **Trivy**, and **OWASP** Dependency Check into CI/CD pipelines to improve security and code quality.
- Configured **Prometheus** and **Grafana** monitoring, improving system visibility and reducing incident response time by **40%**.
- Managed **Git branching strategies** and collaborated with development teams to streamline releases.
- Automated configuration management and deployments using **Ansible** across multiple environments.

KEY PROJECT

Production-Grade Microservices CI/CD Platform on AWS Kubernetes github.com/RajeshGalipelli

- Built an automated CI/CD pipeline using Jenkins, Git, Maven, SonarQube, Trivy, and OWASP Dependency Check.
- Containerized microservices using Docker and deployed them on Kubernetes with Ingress, HPA, and EBS volumes.
- Implemented GitOps deployments using ArgoCD for automated and zero-downtime releases.
- Configured Prometheus and Grafana for monitoring, alerting, and performance tracking.
- Improved deployment efficiency by 50% through automation and DevSecOps practices.

CERTIFICATIONS

Microsoft Certified: Azure Fundamentals (AZ-900)

Issued Aug 2022 · Cert: I390-3868

EDUCATION

B-Tech — Electrical & Electronics Engineering

2018 — 2021

Sree Chaitanya College of Engineering
